

FISH FOOD CATALOG

OUR COMPANY

- Manufacturing fish feeds in California since 1982
- Manufacturer of high quality fish feed for marine and freshwater fish
- Pioneer in commercial production of formulated aquarium foods

Our mission is Preserving Life and Beauty Through Nutrition. This mission statement says it all. At Ocean Nutrition™ we have developed a passion for aquatic pets. We produce foods that are easy to use for the hobbyist and that are likewise ideal for both the health and beauty of fish, invertebrates and corals. We understand that our foods become viable solutions only when both of these requirements are fulfilled.

We measure our success by making products that increase hobbyists' success. Our quality foods make aquarium keeping more practical and easier to manage, but most importantly they make the hobby a lot more fun.

SALTWATER

FROZEN FORMULA FOODS™

NEW! ADVANCED FORMULAS

Our Frozen Formula Foods™ no longer need to be thawed before feeding! In fact we recommend not thawing the foods so that no external bacteria can contaminate the food.

They contain a new binder which is a unique combination of ingredients from both marine and plant origin that is 95% digestible and contains soluble dietary fiber.

STANDARD

These products float and then sink slowly, providing food for fish at different levels.

For more information on our Frozen Formula Foods™ advanced formulations visit www.oceannutrition.com

FORMULA ONE

A special blend of algae and fresh seafood formulated for omnivorous and carnivorous marine fish. Supports coloration and will help maintain health and vitality. Excellent for most marine species.

Available sizes:
ITEM #10035 3.5oz,
ITEM #10075 7oz

FORMULA TWO™

A special blend of algae and fresh seafood formulated to exceed the nutritional needs of all herbivorous marine and freshwater fish. Excellent for herbivores and omnivores.

Available sizes:
ITEM #20035 3.5oz,
ITEM #20075 7oz

PRIME REEF™

Simultaneously feeds the fish, corals, and invertebrates in reef aquariums. An excellent food for damselfish, clownfish, chromis, anthias, gobies, blennies, wrasses, and more.

Available sizes:
ITEM #30035 3.5oz

ANGEL FORMULA

For marine angelfish, butterfly fish, boxfish, puffer fish, wrasses, and other sponge eaters. Frozen Angel Formula has shown great results with public aquariums and hobbyists.

Available sizes:
ITEM #70035 3.5oz

FROZEN FORMULA FOODS™

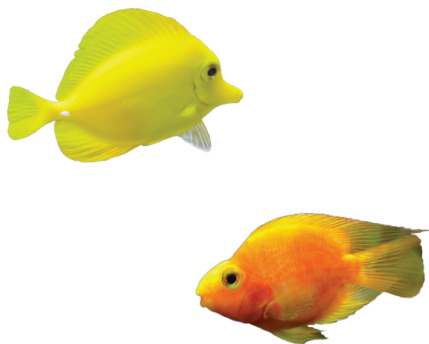

FORMULA VARIETY PACK

An assortment of our Frozen Formula Foods™ in one convenient package: Formula One, Formula Two™, Prime Reef™, Brine Shrimp Plus™ and Spirulina Formula.

Available sizes:
ITEM #10250 2lb cubes

Since 1982 Ocean Nutrition™ has been the leading innovator and trend setter in the Frozen Formula Food™ category.

"The new formula gel foods are more in line with a natural diet that fish would consume in the ocean. Higher quality ingredients combined with less gel binder has proved to be a great formula for healthy fish!"

Nicholas Davi
Curator of
Aquarium Systems

FORMULA FLAKE FOODS

PRIME REEF™ FLAKES

Product Features

- Made in the USA.
- Highly palatable staple food for reef aquariums.
- A source of pure marine proteins.
- Supports coloration and will help maintain health and vitality.
- No artificial colors or preservatives.
- Does not cloud the water.

Prime Reef™ Flakes are a gourmet food, rich in seafood and zooplankton, for all reef aquariums. They contain a high inclusion of fresh seafood ingredients that mimic the nutritional value of a natural diet with an existing flavor that fish cannot resist. This formulation can be fed to a multitude of fish and invertebrates that require pure marine proteins, and a balanced diet. This blend of premium ingredients is easy for fish and invertebrates to digest so they produce less waste and your aquarium stays cleaner.

FISH LOVE IT !

This premium Mysis variety is approximately 2X larger than common aquarium Mysis, which are typically sourced from freshwater or brackish environments.

SALTWATER MYSIS are harvested from the clean, open ocean offshore, providing exceptional purity and quality. Their natural pink coloration comes from high levels of carotenoid pigments, which help promote brighter, more vibrant colors in aquarium fish and corals.

Rich in highly digestible protein and naturally abundant in Omega-3 fatty acids, SALTWATER MYSIS offers an ideal nutritional profile for marine fish while also being an excellent food source for freshwater species.

FORMULA FLAKE FOODS

NEW! ADVANCED FORMULAS

Our Formula Flake Foods™ are now being made in the USA. Many improvements have been made to the products using newly discovered healthy alternatives that were unknown just a few years ago.

We have eliminated artificial colorants, which had copper added as a brightener, and replaced them with natural colors.

We have replaced added artificial preservatives with natural preservatives.

We have increased the inclusion rate of fresh ingredients with a wider variety of ingredients to get closer to what fish eat in their natural habitat.

For more information on our Formula Flake Foods™ advanced formulations visit www.oceannutrition.com

FORMULA ONE

Highly attractive staple food for marine and freshwater tropical fish. This food helps support coloration and will help maintain health and vitality. Does not cloud water.

Available sizes:
ITEM #25505 1.2oz,
ITEM #25510 2.5oz
ITEM #25515 5.5oz jars

FORMULA TWO™

A gourmet natural food with extra algae to please herbivorous marine and freshwater fish. Contains marine algae and spirulina. Ideal for omnivores that need extra vegetable matter.

Available sizes:
ITEM #25535 2.5oz
ITEM #25540 5.5oz jars

SPIRULINA FLAKES

An ideal food for freshwater and marine tropical fish. Helps support coloration and will help maintain health and vitality. This food has a high protein content, making it an exceptional staple food.

Available sizes:
ITEM #25485 2.5oz jars

BRINE SHRIMP PLUS™

Brine Shrimp are supplemented with a nutritious blend of seafood, plankton, algae, vitamins, and minerals yielding a succulent flavor. Helps support coloration and will help maintain health and vitality.

Available sizes:
ITEM #25580 1.2oz,
ITEM #25585 2.5oz
ITEM #25590 5.5oz jars

FORMULA FLAKE FOODS

PRIME REEF™

This natural blend of fresh, raw seafood provides an excellent source of pure marine protein from the coral reef and creates an exciting flavor that marine tropical fish and shrimp cannot resist.

Available sizes:

ITEM #25555 1.2oz, ITEM #25560 2.5oz

ITEM #25565 5.5oz jars

CICHLID VEGI FORMULA

Formulated for herbivorous African cichlids and other herbivorous freshwater fish. A highly attractive food with appropriate protein content that is rich in vitamins and contains lots of plant matter.

Available sizes:

ITEM #25630 1.2oz, ITEM #25635 2.5oz

ITEM #25640 5.5oz jars

COMMUNITY FORMULA

This delicious blend of the finest ingredients stimulates appetite, coloration, and breeding in freshwater community tanks.

Available sizes:

ITEM #25600 1.2oz,

ITEM #25605 2.5oz

CICHLID OMNI FORMULA

Scientifically formulated for African and South-American omnivorous and predatory cichlids and other omnivorous freshwater fish.

Available sizes:

ITEM #25650 2.5oz

ITEM #25655 5.5oz jars

BULK FORMULA FLAKE FOODS™

Convenient 4.5lb bulk boxes. Formula One, Formula Two™, Prime Reef™, Brine Shrimp Plus, Spirulina, Cichlid Omni, Cichlid Vegi, Discus and Community Formula™.

Excellent for breeders, zoos, public aquariums and more.

PELLET & WAFER FOOD

FORMULA ONE

A perfectly soft and moist pellet. The main characteristics are increased palatability and easy digestion. This food is intended for carnivorous and omnivorous fish.

Available sizes:

3.53oz SM: ITEM #09220 MD: ITEM #09220

7.05oz SM: ITEM #09232 MD: ITEM #09232

14.11oz SM: ITEM #09224 MD: ITEM #09234

FORMULA TWO™

A perfectly soft and moist pellet. The main characteristics are increased palatability and easy digestion. This food contains extra spirulina algae and is intended for herbivorous and omnivorous fish.

Available sizes:

3.53oz SM: ITEM #09240 MD: ITEM #09250

7.05oz SM: ITEM #09242 MD: ITEM #09252

14.11oz SM: ITEM #09244 MD: ITEM #09254

SHRIMP WAFERS

An ideal staple food for freshwater shrimps encouraging the fascinating natural feeding behavior in the shrimp. Contains high levels of spirulina to help support coloration.

Available sizes: ITEM #09660 0.53oz

BRINE SHRIMP

INSTANT BABY BRINE SHRIMP

Freshly hatched baby brine shrimp that are ready to use. Ideal food for delicate small fish, fish fry, and as food for many invertebrates. It has an excellent buoyancy so the food remains in the water column to facilitate feeding. One bottle contains in excess of 1.5 million *Artemia* nauplii. The product can be kept and stored at normal room temperature as long as the bottle has not been opened. Developed in collaboration with the Artemia Reference Center. Does not cloud the water.

Available sizes: ITEM #88402 0.71oz

BETTA PRODUCTS

BETTA SPA

The wild almond leaf extract creates a more natural environment for the Betta fish. The leaves contain humic acids and tannis, and are known to have antibacterial properties. The Yucca extract binds the ammonia (NH3) in the water. We recommend use of the Betta Spa for all fishes kept in small containers, especially during transportation as it adds essential trace elements to the water. Ideal for conditioning your Betta, promotes spawning, activity, and colors.

Available sizes:
ITEM #88330 125ml bottle

BETTA PELLETS

High quality mini floating pellets, developed to produce the most nutrient complete food for the Betta species.

Available sizes:
ITEM #09330 0.53oz
ITEM #09310 2.65oz
